Impros/TBM Racing Hooker Impeller

\$289.95

With the release of the new 2008 Yamaha Super Jet, Impros designed an impeller for all Yamaha Super Jet owners that utilizes a swirl design and C-75 hub that works excellent with our Super Pump Cone. The large hub and superior blade design gives Yamaha riders the hook up, acceleration and top speed they desire. This impeller can be used in 1991 through 2008 Yamaha Super Jets with or without our Super Pump Cone. Available in a 10/16, 11/17, or 12/18 configuration with 0 - 7mm cut back.
