RRP Yamaha SuperJet 2 Air Inlet Handle Pole Bracket ('96 & Up)

\$289.00

This CNC machined bracket uses 6061 T6 anodized aluminum. It will allow you to install the dual air intake of 2 1/2 inches each that will double you air intake resulting in more power. Less water will enter into you engine compartment due to the fact that it will take in air at the highest point on the ski. This bracket is lower than stock for lowering the pivot point on the ski to Improve the handling. Using a really wide mounting surface, 6 bolts and underplate to give a really good clamping on to the ski to the set with here to give a really good clamping on to the ski to the set with here to give a really good clamping on the ski to the set of the
