TBM Racing Kawasaki SX-R Lightweight Hood

\$899.95

This lightweight SX-R 800 hood is a long time coming, but good things come to those who wait. We have cut, shaped and reshaped this hood until we were 100% satisfied with the style, performance and fit. You will not find a better looking, fitting or performing hood on the market. As with all of our products we only use the highest quality materials to manufacture this lightweight racing hood and it's truly worthy of the TBM label. You will decrease under hood temperatures, evacuate fumes and lower the center of gravity which improves handling significantly. Our hood insert is designed to keep the engine compartment dry and will fit any Factory Pipe or our TBM Twin Pipes.
