TBM RACING SX-R 800 UNIVERSAL GIRDLED HEAD CAP

\$165.95

We redesigned our SX-R 800 Girdled Head Cap to accommodate our new Twin Pipe exhaust system. Specific pockets are machined into the cap to accept the twin pipe mounting brackets. We didn't want to exclude our customers that prefer to run the Factory Dry Pipe, so we designed the head cap to rotate 180 degrees to accept the Factory Pipe brackets. It is necessary to purchase P/N TBM107-FP when using the Factory Dry Pipe.

Note: The SX-R 800 Universal Head Cap is standard with the new SX-R 800 Girdled Head.
